20 Case No. 4:14-CV-04908-JD

21 Plaintiff,

22 v.
**JOINT CASE MANAGEMENT
STATEMENT AND [PROPOSED]
ORDER**

23 PALO ALTO NETWORKS, INC.,

24 Defendant.
Courtroom: 11, 19th Floor
Judge: Honorable James Donato

Pursuant to Federal Rule of Civil Procedure 26(f), Civil Local Rule 16-9, Patent Local Rule 2-1(b), the Standing Order for All Judges of the Northern District of California – Contents of Joint Case Management Statement, the Court’s Standing Order for Civil Cases, and the Reassignment Order Setting CMC (Dkt. No. 151), the parties to the above-titled action, Plaintiff Finjan LLC (“Finjan”) and Defendant Palo Alto Networks, Inc. (“PAN”), jointly submit the following Joint Case Management Statement and Proposed Order.

1. Jurisdiction and Service

This is an action for patent infringement arising under 35 U.S.C. § 101 et seq. The Court has subject matter jurisdiction over this action pursuant to 28 U.S.C. §§ 1331 and 1338(a). Venue is proper in this Court pursuant to 28 U.S.C. §§ 1391(b) and (c) and/or 1400(b). No issues exist regarding personal jurisdiction or service.

2. Facts

Finjan’s Infringement Claims: Finjan filed this case over six years ago—on November 4, 2014—asserting ten (10) patents. After Judge Hamilton lifted the stay on January 25, 2021 (Dkt. No. 84), Finjan filed an Amended Complaint on March 31, 2021 (Dkt. No. 112) and asserted the following seven (7) patents. Finjan contends it holds all rights, title, and interest in these patents.

- U.S. Patent No. 6,804,780 (“the ’780 Patent”);
- U.S. Patent No. 7,418,731 (“the ’731 Patent”);
- U.S. Patent No. 7,613,926 (“the ’926 Patent”);
- U.S. Patent No. 7,647,633 (“the ’633 Patent”);
- U.S. Patent No. 8,141,154 (“the ’154 Patent”);
- U.S. Patent No. 8,225,408 (“the ’408 Patent”); and
- U.S. Patent No. 8,677,494 (“the ’494 Patent”).

For the other three originally-asserted patents (U.S. Patent Nos. 6,965,968, 7,058,822, and 7,613,918), Judge Hamilton dismissed with prejudice Finjan’s claims for infringement and PAN’s counterclaims and defenses based on a joint stipulation. (Dkt. No. 111.) In accordance with the stipulated case narrowing schedule ordered by Judge Hamilton on June 9, 2021 (Dkt. No. 126), Finjan served a Preliminary Election of Asserted Claims on June 21, 2021—continuing to assert

1 twenty-one (21) claims from the '731 Patent, the '154 Patent, the '408 Patent, and the '633 Patent
 2 (collectively, "the Patents-in-Suit") and no claims from the '780 Patent, the '926 Patent, and the
 3 '494 Patent (collectively, "the ESET Patents"). The parties have filed two joint stipulations and
 4 proposed orders to dismiss the ESET Patents from the case (Dkt. Nos. 130, 156) in view of Judge
 5 Bencivengo's judgment of invalidity of the '780 Patent and four other Finjan patents based on a
 6 finding of indefiniteness (*Finjan, Inc. v. ESET, LLC*, No. 3:17-cv-0183-CAB-BGS, Dkt. No. 869
 7 (S.D. Cal. Mar. 29, 2021)). Although both stipulations were denied (Dkt. Nos. 131, 157), the
 8 parties continue to work together to appropriately dismiss the ESET Patents from the case in
 9 accord with the agreed conditions in the stipulation and the Court's Order and expect to present a
 10 further plan at the CMC.

11 Finjan alleges that PAN has infringed and/or continues to infringe the Patents-in-Suit by
 12 making, using, selling, offering for sale and/or importing "products and services that utilize the
 13 Next Generation Enterprise Security Platform, App-ID, User-ID, Content-ID, Wildfire, Next-
 14 Generation Intelligence Cloud, and Targeted Remote Attack Prevention System ('TRAPS' also
 15 spelled as 'Traps')," including: "Next-Generation Security Platform, Next-Generation Firewall,
 16 Virtualized Firewall, WildFire Subscription, WildFire Platform, URL Filtering Subscription,
 17 Threat Prevention Subscription, and Advanced Endpoint Protection." (See, e.g., Dkt No. 112 ¶
 18 31.) On April 1, 2021, Finjan served Patent Local Rule 3-1 Infringement Contentions and
 19 identified the accused products as the Next-Generation Firewalls ("NGFWs"), WildFire, Traps,
 20 Threat Prevention, and URL Filtering.

21 Finjan additionally alleges that PAN has induced and/or continues to induce infringement
 22 of the Patents-in-Suit by instructing, directing and/or requiring others to perform the steps of
 23 method claims of these patents.

24 Finjan seeks damages and injunctive relief for PAN's infringement, as well as a finding
 25 that PAN's infringement has been willful and that this case is exceptional.

26 PAN's Defenses and Counterclaims: PAN filed its Answer to Finjan's Amended
 27 Complaint on April 14, 2021 (Dkt. No. 116), denying infringement and asserting affirmative
 28 defenses of non-infringement, invalidity, judicial estoppel, prosecution history estoppel and

1 disclaimer, prosecution laches, ensnarement and prior art estoppel, adequate remedy at law,
 2 limitations on damages, 28 U.S.C. § 1498, inequitable conduct as to the '494 Patent and the '154
 3 Patent, unclean hands as to the '494 Patent and the '154 Patent, failure to mark, and preclusion.
 4 PAN also asserts counterclaims seeking declarations of non-infringement and invalidity of the
 5 Patents-in-Suit, and unenforceability of the '494 Patent and '154 Patent due to inequitable
 6 conduct and unclean hands. PAN further seeks a finding of exceptional case.

7 On May 5, 2021, Finjan filed its Answer to PAN's counterclaims (Dkt. No. 121), denying
 8 non-infringement, invalidity, and unenforceability, and asserting affirmative defenses of failure to
 9 state a claim upon which relief may be granted, good faith, and equitable estoppel. On the same
 10 day, Finjan also filed a motion to strike and dismiss PAN's affirmative defenses and
 11 counterclaims related to inequitable conduct for not being sufficiently pleaded. (Dkt. No. 120.)
 12 After full briefing (Dkt. No. 122 (PAN's opposition), Dkt. No. 124 (Finjan's reply)), Judge
 13 Hamilton denied the motion on June 23, 2021 (Dkt. No. 131).

14 Pre-Stay: The Court initially assigned this case to Magistrate Judge Corley. (Dkt. No.
 15 10.) After Finjan declined magistrate judge jurisdiction (Dkt. No. 14), the case was reassigned to
 16 Judge Chen on December 8, 2014 (Dkt. No. 16). Judge Chen recused himself from the case on
 17 October 8, 2015 (Dkt. No. 56), and the case was reassigned to Judge Hamilton (Dkt. No. 57). On
 18 October 15, 2015, Judge Hamilton ordered a Case Management Conference to be held on
 19 November 5, 2015 (Dkt. No. 58), which Judge Hamilton rescheduled for December 3, 2015, on
 20 joint motion of the parties (Dkt. No. 61). On November 25, 2015, the parties filed a Joint Case
 21 Management Statement. (Dkt. No. 62.)

22 Five days later, PAN filed a motion to stay the case based on thirteen petitions for *inter*
 23 *partes* review relating to asserted patents that PAN filed with the United States Patent and
 24 Trademark Office's Patent Trial and Appeal Board ("PTAB"). (Dkt. No. 63.) Concurrent with
 25 the motion to stay, PAN filed a motion for partial judgment on the pleadings of invalidity of the
 26 '780 and '494 Patents under 35 U.S.C. § 101. (*Id.*)

27 At the Case Management Conference on December 3, 2015, Judge Hamilton indicated she
 28 would stay the case pending the PTAB's decisions on whether to institute PAN's IPRs and

1 ordered PAN to withdraw the motion for partial judgment on the pleadings. (Dkt. No. 65.) On
2 December 10, 2015, Judge Hamilton entered the Order staying the case and withdrawing the
3 motion for partial judgment on the pleadings. (Dkt. No. 67.) On May 23, 2016, the parties filed a
4 Joint Status Report informing Judge Hamilton that the PTAB had granted institution of six IPR
5 petitions on four asserted patents, but denied institution of seven IPR petitions on six asserted
6 patents. (Dkt. No. 68.) Finjan requested Judge Hamilton to lift the stay as to the six patents on
7 which the PTAB denied institution of the IPRs, while PAN requested Judge Hamilton to leave the
8 stay in place for all patents through the pendency of the six instituted IPRs on the four asserted
9 patents. (*Id.*) On May 26, 2016, Judge Hamilton ordered the stay to remain in place as to all
10 patents. (Dkt. No. 69.)

11 The IPR Petitions: The IPR proceedings and the subsequent appeals to the Federal Circuit
12 are complete, as the parties reported in the Joint Status Report on December 28, 2020. (Dkt. No.
13 68.) The chart below summarizes the results of the IPR proceedings for the ten originally-
14 asserted patents.

¹ In a separate IPR filed by Cisco Systems, Inc. (IPR2018-00391), the PTAB found claims 1-4, 8, and 11-13 of the '633 Patent to be unpatentable.

Post-Stay: On joint request from the parties (Dkt. No. 83), Judge Hamilton lifted the stay on January 25, 2021, set a Case Management Conference on March 18, 2021, and ordered the parties to file a Joint Case Management Statement (Dkt. No. 84). The parties filed a Joint Case Management Statement on March 11, 2021. (Dkt. No. 104.) During the Case Management Conference on March 18, 2021, Judge Hamilton, among other things, ordered the parties to file a joint stipulation for case narrowing, have a settlement conference before Magistrate Judge Nathanael Cousins, and set the following dates: Technology Tutorial on September 29, 2021 and Claim Construction Hearing on either October 13, 2021 or October 14, 2021. (Dkt. No. 106.) No dates were set beyond the Claim Construction Hearing, and the parties agreed on all dates prior to the Claim Construction Hearing (Dkt. No. 104).

The parties have completed these dates other than the Technology Tutorial and Claim Construction Hearing, which were vacated in view of the Reassignment Order reassigning the case to Judge Donato on August 9, 2021 (Dkt. No. 150). These include Finjan’s Patent Local Rule 3-1 Infringement Contentions (served on April 1, 2021), PAN’s Patent Local Rule 3-3 Invalidity Contentions (served on May 17, 2021), Finjan’s Patent Local Rule 3-8 Damages Contentions (served on July 6, 2021), and PAN’s Patent Local Rule 3-9 Responsive Damages Contentions (served on August 5, 2021). The parties also filed a Stipulated Protective Order, which Judge Hamilton entered on March 31, 2021 (Dkt. No. 110) and a Stipulated ESI Order, which Judge Hamilton entered on April 20, 2021 (Dkt. No. 117).

The parties completed all claim construction discovery on August 16, 2021, including claim construction disclosures pursuant to Patent Local Rules 4-1, 4-2, 4-3, and 4-4. The parties have also completed claim construction briefing, including Finjan’s opening claim construction brief filed on August 30, 2021 (Dkt. No. 158), PAN’s responsive claim construction brief filed on September 13, 2021 (Dkt. No. 159), and Finjan’s reply claim construction brief filed on September 20, 2021 (Dkt. No. 163). In accordance with paragraph 6 of the Court’s Standing Order for Claim Construction in Patent Cases, the parties filed a final amended joint claim construction and pre-hearing statement on September 20, 2021. (Dkt. No. 164.)

3. Legal Issues

1 The principal disputed legal issues are:

- 2 • The proper construction of any disputed claim terms;
- 3 • Whether PAN infringes any or all of the Patents-in-Suit, either directly (35 U.S.C. §
- 4 271(a)) or indirectly (35 U.S.C. § 271(b));
- 5 • Whether the Patents-in-Suit are invalid (35 U.S.C. §§ 101, 102, 103, 112);
- 6 • Whether the '494 and '154 Patents are unenforceable;
- 7 • Whether Finjan's claims are barred by any defense raised by PAN;
- 8 • Whether Finjan is entitled to damages as a result of the alleged infringement of any or all
- 9 of the Patents-in-Suit, and if so, the amount (35 U.S.C. § 284);
- 10 • Whether Finjan is entitled to injunctive relief to prevent irreparable harm as a result of the
- 11 alleged continuing infringement of any or all of the Patents-in-Suit (35 U.S.C. § 283);
- 12 • Whether PAN's alleged infringement has been willful; and
- 13 • Whether this case is exceptional (35 U.S.C. § 285).

14 **4. Motions**

15 (a) Pending Motions

16 PAN's Motion to Strike/Confirm re Finjan's Infringement Contentions: On September
 17 16, 2021, PAN filed a motion to confirm Finjan has no operative infringement contentions for the
 18 '633, '408, and '731 Patents and strike Finjan's amended infringement contentions for the '154
 19 Patent ("Motion"). (Dkt. No. 161.) PAN concurrently filed an administrative motion to file
 20 under seal portions of supporting materials to its Motion. (Dkt. No. 160.) On September 30,
 21 2021, Finjan filed its opposition (Dkt. No. 165) and an administrative motion to file under seal
 22 portions of its opposition and one exhibit (Dkt. No. 166). PAN filed a declaration in support of
 23 Finjan's sealing motion on October 4, 2021. (Dkt. No. 168.) PAN filed its reply in support of the
 24 Motion on October 7, 2021. (Dkt. No. 170.) PAN has noticed the hearing for the Motion on
 25 October 21, 2021 at 10:00 am.

26 The Motion is preceded by PAN's motion to strike Finjan's initial infringement
 27 contentions for the Patents-in-Suit, filed on June 15, 2021. (Dkt. No. 128.) After full briefing
 28 (Dkt. No. 132 (Finjan's opposition), Dkt. No. 139 (PAN's reply)), Judge Hamilton issued an

1 order granting-in-part and otherwise denying PAN’s motion to strike. (Dkt. No. 146.) Judge
2 Hamilton ordered Finjan to “serve amended infringement contentions in accordance with this
3 order” within 30 days (August 19, 2021). (*Id.* at 4.) The parties disagree on the scope of the
4 portion of the order granting the motion in-part, and that disagreement is reflected in the parties’
5 briefing. (See Dkt. Nos. 160, 165, 170.) On the same day that the Court issued its Order on
6 PAN’s motion to strike (Dkt. No. 146), it also terminated Finjan’s then-pending motion to amend
7 its infringement contentions (Dkt. No. 147).

(b) Anticipated Motions

9 Discovery Dispute on Documents Concerning Valuations of the Patents-in-Suit: PAN
10 intends to seek relief from the Court on certain documents that Finjan is withholding based on
11 privilege. The documents PAN believes Finjan is withholding include documents exchanged
12 with Fortress Investment Group and other third parties concerning valuations of the Patents-in-
13 Suit (whether indirect or direct). Despite communications between the parties on this issue, the
14 parties remain at an impasse.

15 The '780 Patent, the '926 Patent, and the '494 Patent (collectively, “the ESET Patents”):
16 The parties have filed two joint stipulations and proposed orders to dismiss the ESET Patents
17 from the case (Dkt. Nos. 130, 156) in view of Judge Bencivengo’s judgment of invalidity of the
18 '780 Patent and four other Finjan patents based on a finding of indefiniteness (*Finjan, Inc. v.*
19 *ESET, LLC*, No. 3:17-cv-0183-CAB-BGS, Dkt. No. 869 (S.D. Cal. Mar. 29, 2021)). Although
20 both stipulations were denied (Dkt. Nos. 131, 157), the parties continue to work together to
21 appropriately dismiss the ESET Patents from the case in accord with the agreed conditions in the
22 stipulation and the Court’s Order and expect to present a further plan at the CMC.

23 Other: Finjan and PAN each anticipate moving for summary judgment and may file other
24 dispositive and non-dispositive motions as appropriate as the case progresses. The parties
25 understand that the Local Rules of this Court, and applicable paragraphs of the Court's Standing
26 Order for Civil Cases, Discovery in Civil Cases, and Civil Jury Trials apply to motions filed in
27 this case.

1 **5. Amendment of Pleadings, Addition of Parties, Etc.**

2 The deadline to amend pleadings without leave of the Court passed on April 1, 2021. On
 3 that day, Finjan filed an Amended Complaint (Dkt. No. 112) as discussed above.

4 **6. Evidence Preservation**

5 The parties have reviewed the Northern District of California's Guidelines for the
 6 Discovery of Electronically Stored Information ("ESI"), the Northern District of California's
 7 Model ESI Order, and Checklist for Rule 26(f) Meet and Confer Regarding ESI, including those
 8 portions related to evidence preservation. Additionally, the parties have met and conferred at
 9 their Rule 26(f) conference and since that time regarding evidence preservation. Each party has
 10 implemented a litigation hold with respect to all ESI and hardcopy documents and media
 11 identified as relevant to this action.

12 **7. Disclosures**

13 The parties exchanged initial disclosures pursuant to Rule 26(a) on February 12, 2015.
 14 Given the time that passed due to the stay, the parties exchanged amended initial disclosures on
 15 April 30, 2021.

16 **8. Discovery**

17 Pre-Stay: The parties met and conferred pursuant to Rule 26(f) on January 23, 2015. On
 18 the same day, each party served its first sets of requests for production and interrogatories on the
 19 other party. Prior to the stay, Finjan served additional requests for production and interrogatories
 20 on PAN. The parties produced documents and provided interrogatory responses. In addition,
 21 PAN made its source code available to Finjan, and Finjan conducted source code review. Finjan
 22 also served a Rule 30(b)(6) notice on PAN related to its source code, and Finjan took one
 23 deposition of a PAN employee pursuant to certain topics of that notice. PAN served subpoenas
 24 on third parties and some of those third parties produced documents in response.

25 Post-Stay: The parties agreed to discovery provisions set forth in Section 8 of the Joint
 26 Case Management Statement filed on March 11, 2021 (Dkt. No. 104). Each party has served
 27 additional requests for production and interrogatories on the other party. The parties have made
 28 additional document productions in response to discovery requests and in accordance with the

1 Patent Local Rules 3-2 and 3-4. The parties have also responded to interrogatories and served
 2 supplemental interrogatory responses. PAN made additional source code available to Finjan, and
 3 Finjan conducted source code review. PAN served subpoenas on additional third parties, and
 4 some of those third parties have produced documents in response. As PAN stated in its motion to
 5 strike described in Section 4, “PAN has produced all requested versions of its source code and all
 6 core technical documents.” (Dkt. No. 161-1.)

7 The parties are communicating regarding the sufficiency of certain discovery responses.
 8 For instance, the parties have been corresponding regarding the sufficiency of PAN’s invalidity
 9 contentions (served on May 17, 2021), which PAN supplemented on July 6, 2021 and October 6,
 10 2021. PAN intends to move for leave on these supplemental contentions. The parties have also
 11 been corresponding regarding the sufficiency of Finjan’s production of documents requested by
 12 PAN from previous litigations. The parties have further been corresponding regarding the
 13 sufficiency of Finjan’s damages contentions. If the parties reach an impasse on any of these
 14 issues, the parties will appropriately comply with the Local Rules and the Court’s Standing Order
 15 for Discovery in Civil Cases.

16 Pursuant to Rule 26(f), paragraph 8 of the Standing Order for All Judges of the Northern
 17 District of California – Contents of Joint Case Management Statement, and the Court’s Standing
 18 Order for Discovery in Civil Cases, the parties propose the following discovery plan:

19 (a) Changes to the timing, form, or requirement for disclosures under Rule
 20 26(a), including a statement of when initial disclosures were made or will
 be made.

21 As noted above, the parties exchanged Rule 26(a) initial disclosures on February 12, 2015
 22 and amended initial disclosures on April 30, 2021. The parties’ respective proposals regarding
 23 the timing for expert disclosures under Rule 26(a)(2) and pretrial disclosures under Rule 26(a)(3)
 24 are set forth in the proposed schedule at Section 17 (Appendix A) below.

25 (b) Subjects on which discovery may be needed, when discovery should be
 26 completed, and whether discovery should be conducted in phases or be
 limited to or focused on particular issues.

1 The parties anticipate that the scope of discovery will encompass the factual and legal
 2 issues identified in Sections 2 and 3 above, and the requested relief discussed in Section 11
 3 below. The parties' respective proposals regarding when discovery should be completed are set
 4 forth in the proposed schedule in Section 17 (Appendix A) below.

- 5 (c) Any issues about disclosure or discovery of electronically stored
 6 information, including the form or forms in which it should be produced.

7 The parties filed a Stipulated ESI Order, which Judge Hamilton entered on April 14, 2021.
 8 (Dkt. No. 117.)

- 9 (d) Any issues about claims of privilege or of protection as trial-preparation
 10 materials, including — if the parties agree on a procedure to assert these
 11 claims after production — whether to ask the court to include their
 agreement in an order.

12 The parties agree that neither party will produce nor list on any privilege log any item
 13 protected by any privilege, immunity, or protection that occurred or was/is created on or after the
 14 filing date of this litigation. The parties understand that the detail required for privilege logs is set
 15 forth in paragraph 7 of the Court's Standing Order for Discovery in Civil Cases. The parties
 16 agree to exchange privilege logs on the date set forth in the proposed schedule at Section 17
 17 (Appendix A) below. Subject to the foregoing, the parties agree that issues of privilege or work
 18 product shall be addressed as provided in the Federal Rules of Civil Procedure, Federal Rule of
 19 Evidence 502, Stipulated Protective Order (Dkt. No. 110), and paragraph 7 of the Court's
 20 Standing Order for Discovery in Civil Cases.

- 21 (e) Changes that should be made in the limitations on discovery imposed
 22 under these rules or by local rule, and what other limitations should be
 23 imposed.

24 To the extent not limited below, and unless otherwise agreed to by the parties, the parties
 25 agree that discovery is subject to the limitations set forth in the Federal Rules of Civil Procedure,
 26 Local Rules of this Court, the Court's Standing Order for Discovery in Civil Cases, and the
 27 Stipulated ESI Order (Dkt. No. 117). If a party requests discovery that exceeds any of the
 28 limitations set forth below, the parties agree to meet and confer in a good faith to attempt to

resolve the issue without intervention of the Court. If the parties are unable to reach agreement, a party may seek leave from the Court for the additional discovery.

(i) Requests for Production of Documents and Things

The parties agree that there shall be no limit on the number of requests for production of documents and things that each side may serve.

(ii) Interrogatories

The parties agree that each side may serve up to 25 interrogatories.

(iii) Request for Admissions

The parties agree that each side may serve up to 45 requests for admission. Requests for admission related to the authentication of documents are exempt from this limitation and shall be unlimited in number.

(iv) Depositions

Fact Depositions:

The parties agree that each side is limited to 84 hours of deposition time for fact depositions, including individual and Rule 30(b)(6) depositions of the other party as well as third party depositions. Expert depositions will not count towards these limits.

The parties agree that individual depositions are limited to 7 hours of deposition time. While the 7 hour per witness limit does not apply to Rule 30(b)(6) witnesses, each deposition day will be limited to 7 hours. Individual depositions requiring an interpreter are limited to 14 hours of deposition time and will be conducted on two consecutive days. Individual and Rule 30(b)(6) depositions requiring an interpreter count as half time against the deposition limit.

Expert Depositions:

The parties agree that an expert witness may be deposed for up to 7 hours for each primary issue (*e.g.*, infringement, invalidity, damages) on which that expert has provided an opinion. Thus, if an expert provides an opinion regarding infringement as well as an opinion regarding invalidity, then that expert may be deposed for up to 7 hours regarding infringement and for up to 7 hours regarding invalidity, for a maximum total of 14 hours of deposition time.

The parties also agree to meet and confer in good faith in the period leading up to expert

1 depositions regarding whether adjustments to the default rule should be made in light of the issues
 2 that remain in the case and the number of Patents-in-Suit that the expert addresses.

3 Subject to the foregoing, the parties understand that paragraphs 8-16 of the Court's
 4 Standing Order for Discovery in Civil Cases apply to depositions in this case.

5 (f) Protective Order

6 The parties filed a Stipulated Protective Order, which Judge Hamilton entered on March
 7 31, 2021. (Dkt. No. 110.) The parties have also entered into a COVID-19 Source Code Review
 8 Protocol.

9 (g) Discovery from Experts

10 The parties agree that the Federal Rules of Civil Procedure (*e.g.*, Rule 26(b)(4)), the Local
 11 Rules of this Court, and paragraph 17 of the Court's Standing Order for Discovery in Civil Cases
 12 govern discovery from experts in this case.

13 (h) Service

14 The parties agree that service via email is acceptable pursuant to Rule 5(b)(2)(E).
 15 Documents served on a party shall be emailed to all attorneys of record for that party.² The
 16 parties further agree to the following:

- 17 • Discovery Requests: Service by email shall be deemed effective if served by 5 pm
 18 Pacific Time and if not, shall be deemed effective on the following day.
- 19 • Discovery Responses: Service by email shall be effective on the calendar date
 20 served. (For the sake of clarity, discovery responses may be served up to midnight
 21 Pacific Time on the last day on which the responses are due.)

22 **9. Class Actions**

23 Not Applicable.

27 ² Service upon Finjan via email shall be effective only with Finjan-PAN_Fish-Service@fr.com.
 28 Service upon PAN via email shall be effective only with MoFo-PAN-Finjan@mofo.com.

1 **10. Related Pending Cases**

2 Information concerning other pending litigations and proceedings before the United States
3 Patent and Trademark Office involving the Patents-in-Suit is provided at Appendix B.

4 **11. Relief**

5 Finjan seeks entry of judgment finding that PAN has infringed and/or continues to
6 infringe the Patents-in-Suit, both directly and indirectly, and that PAN's infringement has been
7 willful. Finjan also seeks injunctive relief, including an injunction against PAN from infringing
8 the Patents-in-Suit. Finjan also seeks monetary damages, including damages based on a
9 calculation of lost profits or an amount no less than a reasonable royalty, and Finjan anticipates it
10 will seek no less than \$100 million based on the publicly available information, up from \$60
11 million reported in the last Joint Case Management Statement due to the damages continuing to
12 accrue during the stay. Finjan further seeks a judgment that this case is exceptional and an award
13 of Finjan's costs and reasonable attorneys' fees. Finjan also seeks an accounting of all sales and
14 revenues, together with pre-judgment and post-judgment interest. Finjan seeks any other relief
15 available under applicable law.

16 PAN seeks a declaration that PAN does not infringe the Patents-in-Suit. PAN further
17 seeks a declaration that the Patents-in-Suit are invalid and that the '494 and '154 Patents are
18 unenforceable due to inequitable conduct and unclean hands. PAN also seeks judgment that
19 Finjan filed this action without a good faith basis, and is thus liable for attorneys' fees, expenses,
20 and costs incurred by PAN in connection with this action.

21 **12. Settlement and ADR**

22 Pursuant to ADR L.R. 3-5, the parties reviewed the Court's ADR handbook, discussed the
23 available ADR procedures and considered whether this case would benefit from an ADR
24 procedure. The parties chose mediation as the ADR process for this case pursuant to ADR L.R.
25 6. (Dkt. No. 35.) Prior to the stay, a mediation session took place on September 15, 2015 with
26 mediator Vicki Veenker. After the stay and at the Case Management Conference on March 18,
27 2021, Judge Hamilton referred the case to a settlement conference before Magistrate Judge
28 Cousins. (Dkt. No. 106.) The parties have since submitted confidential Settlement Conference

1 Statements to Magistrate Judge Cousins on August 3, 2021, and appeared via Zoom at a
 2 Settlement Conference on August 10, 2021. (Dkt. No. 152.) Magistrate Judge Cousins ordered
 3 the parties provide the Court with a confidential update on November 2, 2021, with the settlement
 4 conference to continue November 9, 2021, at 9:30 am, by Zoom. (*Id.*)

5 **13. Consent to Magistrate Judge**

6 The parties do not consent to have a magistrate judge conduct all further proceedings
 7 including trial and entry of judgment.

8 **14. Other References**

9 The parties do not believe that this case is suitable for reference to binding arbitration, a
 10 special master, or the Judicial Panel on Multidistrict Litigation.

11 **15. Narrowing of Issues**

12 In accordance with Judge Hamilton's instructions at the Case Management Conference
 13 held on March 18, 2021, the parties filed a stipulated case narrowing schedule, which Judge
 14 Hamilton entered on June 9, 2021. (Dkt. No. 126.) In accordance with the schedule, Finjan
 15 served a Preliminary Election of Asserted Claims on June 21, 2021, and PAN served a
 16 Preliminary Election of Asserted Prior Art on July 6, 2021. The remaining elections and details
 17 are set forth in the ordered case narrowing schedule. (Dkt. No. 126) A claim construction
 18 hearing and order will allow the parties to further narrow the case as the remaining elections
 19 depend upon the timing of the claim construction order. The schedule, as entered, is reproduced
 20 below. (*Id.*)

<u>Election</u>	<u>Timing</u>	<u>Max Claims/ References Per Patent</u>	<u>Total Claims/ References</u>

4 The parties have also made the required exchanges and filings under the Patent Local
 5 Rules, as follows.

20 16. Expedited Schedule

21 The parties do not propose that this case proceed under the Expedited Trial Procedure of
 22 General Order No. 64 Attachment A.

23 17. Scheduling

24 The parties' respective scheduling proposals are set forth in the chart attached hereto as
 25 Appendix A.
 26
 27
 28

18. Trial

The parties have requested trial by jury. Finjan expects that the trial will require approximately seven to ten court days. PAN believes it is premature to estimate the time for trial, as the parties do not yet know how many patents and patent claims will be asserted at trial. If Finjan maintains all of the Patents-in-Suit in this case, PAN estimates the trial will take no less than three weeks.

19. Disclosure of Non-party Interested Entities or Persons.

The parties have filed Certifications of Interested Entities or Persons pursuant to Civil Local Rule 3-15. (Dkt. No. 3 (Finjan's certification); Dkt. No. 25 (PAN's certification).)

Finjan was recently converted from a corporation to a limited liability company, and in conjunction, changed its name from Finjan, Inc. to Finjan LLC. Finjan has filed an unopposed motion to amend the caption to reflect that name change. (Dkt. No. 101.) The Court granted Finjan's motion. (Dkt. No. 103.) The company of which Finjan is a wholly owned subsidiary also recently went through a similar conversion and changed its name from Finjan Holdings, Inc. to Finjan Holdings LLC. Finjan has filed an updated Certification of Interested Parties or Persons to reflect that name change, as well. (Dkt. No. 102.) Finjan confirms that Finjan LLC is wholly-owned by Finjan Holdings LLC, and no publicly held corporation owns 10% or more of Finjan LLC's stock.

PAN confirms that no other entities have a financial interest in the subject matter in controversy or PAN, or a non-financial interest in that subject matter or PAN that could be substantially affected by the outcome of this proceeding.

20. Professional Conduct

The attorneys of record confirm that they have reviewed the Guidelines for Professional Conduct for the Northern District of California.

21. Other Matters

Pursuant to Patent Local Rule 2-1(b), the parties have also met and conferred regarding the following additional matters:

1 **(1) Proposed modification of the obligations or deadlines set forth in the Patent
2 Local Rules**

3 The parties do not propose any modifications to the obligations or deadlines set forth in
4 the Patent Local Rules at this time.

5 **(2) The scope and timing of any claim construction discovery including disclosure
6 of and discovery from any expert witness permitted by the court**

7 As discussed above, the parties completed all claim construction discovery on August 16,
8 2021, including claim construction disclosures pursuant to Patent Local Rules 4-1, 4-2, 4-3, and
9 4-4. Each party served a claim construction expert report pursuant to Patent Local Rule 4-3 on
10 July 30, 2021. Depositions of the parties' claim construction experts occurred, respectively, on
11 August 13, 2021 (Finjan's expert) and August 16, 2021 (PAN's expert).

12 The parties have also completed claim construction briefing, including Finjan's opening
13 claim construction brief filed on August 30, 2021 (Dkt. No. 158), PAN's responsive claim
14 construction brief filed on September 13, 2021 (Dkt. No. 159), and Finjan's reply claim
15 construction brief filed on September 20, 2021 (Dkt. No. 163). In accordance with the Court's
16 Standing Order for Claim Construction in Patent Cases, the parties filed a final amended joint
17 claim construction and pre-hearing statement on September 20, 2021. (Dkt. No. 164.) PAN
18 notes that in addition to the disputed terms that are identified in the joint claim construction and
19 pre-hearing statement, the parties presently dispute the meaning of at least 10 other terms that
20 may require resolution by the Court. *O2 Micro Int'l Ltd. v. Beyond Innovation Tech. Co.*, 521
21 F.3d 1351, 1360 (Fed. Cir. 2008). Pursuant to the Court's Order (Dkt. No. 141), the parties
22 identified only "ten claim terms in the joint claim construction statement." (Dkt. No. 141 at 2.)
23 Finjan notes that PAN already moved to construe more than 10 terms (Dkt. No. 135), Finjan
24 opposed (Dkt. No. 136), and Judge Hamilton denied PAN's motion (Dkt. No. 141).

25 **(3) The format of the Claim Construction Hearing, including whether the Court
26 will hear live testimony, the order of presentation, and the estimated length of
the hearing**

27 In accordance with paragraph 14 of the Court's Standing Order for Claim Construction in
28

1 Patent Cases, the parties understand that “[t]he claim construction hearing generally will be
 2 scheduled for no longer than 3 hours on a Thursday afternoon” and the parties will request a
 3 telephone conference with the Court as soon as it is apparent that “a special setting is necessary.”
 4 At this time, the parties anticipate that they will not require more than three (3) hours for the
 5 entire hearing. The parties agree that each side will be allocated half of the total time permitted
 6 for the hearing. The parties agree that the presentation of argument at the hearing should be in the
 7 manner and order that the Court prefers to address the issues, particularly given the nature of the
 8 Patents-in-Suit, the technology involved and the number and nature of claim terms that remain in
 9 dispute at the time of the hearing. PAN proposes proceeding patent-by-patent, with Finjan
 10 proceeding first and PAN second, with rebuttal by Finjan and sur-rebuttal by PAN. Finjan
 11 proposes grouping the terms in a logical manner, and doing so once the parties have identified the
 12 terms for construction. The parties do not believe that live expert testimony is required at the
 13 claim construction hearing, but reserve the right to present live expert testimony at the claim
 14 construction hearing.

15 **(4) How the parties intend to educate the court on the technology at issue**

16 In accordance with paragraph 7 of the Court’s Standing Order for Claim Construction in
 17 Patent Cases, the parties understand that “[t]he Court may schedule a tutorial to occur one to two
 18 weeks prior to the claim construction hearing” and that “[n]o argument is permitted.” The parties
 19 also understand that “Court has a strong preference for individuals other than counsel to make the
 20 presentations” such as “[i]nventors, company personnel and individuals who work directly with
 21 the technology.” The parties have each proposed a date for the tutorial in Appendix A. The
 22 parties will comply with paragraphs 7 and 8 if a tutorial is scheduled, including filing a written
 23 technology synopsis at least 7 court days before the tutorial.

APPENDIX B

Other Pending Proceedings Involving The Patents-in-Suit

On July 1, 2016, Finjan filed a lawsuit against ESET, LLC et al. in this district, and on January 27, 2017, the case was transferred to the United States District Court for the Southern District of California (Case No. 3-17-cv-00183), alleging that ESET infringes one of the ten patents asserted against PAN in the instant lawsuit—specifically the '780 Patent—along with five other patents, though the parties here have moved to dismiss the '780 Patent from the case, per the agreed stipulation referenced above. This case was pending before the Honorable Cathy Ann Bencivengo. The ESET court issued a summary judgment order finding the '780 Patent and four other Finjan patents invalid under 35 U.S.C. § 112 for indefiniteness (“ESET Order”). Finjan appealed the ESET Order, and its predicate claim construction order, to the Federal Circuit. The parties are in the midst of the appellate briefing.

On August 4, 2017, Finjan filed a lawsuit against SonicWall, Inc. in this district (Case No. 5-17-cv-04467), alleging that SonicWall infringes eight of the ten patents asserted against PAN in the instant lawsuit—specifically the '780 Patent, the '968 Patent, the '822 Patent, the '926 Patent, the '633 Patent, the '154 Patent, the '408 Patent, and the '494 Patent—along with two additional patents, though Finjan has subsequently withdrawn the '822 Patent and the '633 Patent from the SonicWall case. However, in the PAN litigation, the Court dismissed the '822 Patent, and the parties have moved to dismiss the '780 Patent, the '494 Patent, and the '926 Patent, per the agreed stipulation referenced above. The Honorable Beth Labson Freeman in the San Jose Division entered final judgment on September 8, 2021. Finjan filed its notice of appeal on October 8, 2021.

On September 29, 2017, Finjan filed a lawsuit against Juniper Networks, Inc. in this district (Case No. 3-17-cv-05659), alleging that Juniper infringes seven of the ten patents asserted against PAN in the instant lawsuit—specifically the '780 Patent, the '731 Patent, the '926 Patent, the '633 Patent, the '154 Patent, the '408 Patent, and the '494 Patent—and two additional patents. Following a determination that Juniper did not infringe the '780, '154 and '494 Patents, claims under the other patents were dismissed with prejudice. The non-infringement determination was confirmed on appeal. Post-judgment proceedings occurred before the Hon. William Alsup in the

1 San Francisco Division. These issues are currently up on appeal to the Federal Circuit, and the
 2 parties are in the midst of the appellate briefing. PAN notes that the issue on appeal (Dkt. No.
 3 673) is Judge Alsup's order (Dkt. No. 669) that Finjan pay approximately \$5.9 million in
 4 attorney's fees and costs to Juniper based on the determination that Finjan's assertions of the '494
 5 and '780 Patents was exceptional (Dkt. No. 648). Finjan notes that the only issue on appeal is the
 6 award of attorney's fees. Finjan further notes that none of the procedural issues or litigation
 7 strategies that led to Judge Alsup's determination are present here, (see Dkt. No. 648), and that it
 8 has retained different counsel in this case.

9 On October 1, 2018, Finjan filed a lawsuit against Rapid7, Inc. et al. in the United States
 10 District Court for the District of Delaware (Case No. 1-18-cv-01519), alleging that Rapid7
 11 infringes four of the ten patents asserted against PAN in the instant lawsuit—specifically the '918
 12 Patent, the '154 Patent, the '408 Patent, and the '494 Patent—and three additional patents.
 13 Moreover, in the PAN litigation, the Court dismissed the '918 Patent, and the parties have moved
 14 to dismiss the '494 Patent, per the agreed stipulation referenced above. This case is pending
 15 before the Honorable Christopher J. Burke. The parties were set to begin trial but stipulated to a
 16 stay of the litigation pending the completion of the appellate review in the ESET action. The court
 17 entered the stay order on July 2, 2021.

18 On October 26, 2018, Finjan filed a lawsuit against Fortinet, Inc. in this district (Case No.
 19 3-18-cv-06555), alleging that Fortinet infringes six of the ten patents asserted against PAN in the
 20 instant lawsuit—specifically the '968 Patent, the '822 Patent, the '731 Patent, the '633 Patent, the
 21 '408 Patent, and the '494 Patent—and three additional patents. However, in the PAN litigation,
 22 the Court dismissed the '822 Patent and the '968 Patent, and the parties have moved to dismiss the
 23 '780 Patent, the '494 Patent, and the '926 Patent, per the agreed stipulation referenced above.
 24 This case is pending before Your Honor in the San Francisco division and is currently stayed.
 25 PAN notes that the Court stayed the case due to overlapping issues in Finjan's other cases, *e.g.*,
 26 “case management issues with respect to the multiple cases in this district in which the same
 27 Finjan patents and claims are asserted.” (Dkt. Nos. 32, 38, 43.) Finjan notes that this case, as
 28 discussed in Section 2 (Facts) and Section 8 (Discovery), is much further along procedurally than

1 the *Fortinet* case. For example, *Fortinet* was stayed before any appreciable discovery was
2 completed. In contrast, the parties in this case have served infringement, invalidity, and damages
3 contentions, and fully briefed claim construction. Furthermore, this case was previously stayed
4 more than five years for PAN to litigate its 13 IPRs against the Asserted Patents—prevailing on
5 just three of 198 challenged claims.

6 On November 29, 2018, Finjan filed a lawsuit against Qualys, Inc. in this district (Case
7 No. 4-18-cv-07229), alleging that Qualys infringes five of the ten patents asserted against PAN in
8 the instant lawsuit—specifically the '968 Patent, the '731 Patent, the '154 Patent, the '408 Patent,
9 the '494 Patent—and two additional patents, though Finjan has subsequently withdrawn the '968
10 Patent and the '154 Patent. However, in the PAN litigation, the Court dismissed the '968 Patent,
11 and the parties have moved to dismiss the '494 Patent, per the agreed stipulation referenced above.
12 This case is pending before the Honorable Yvonne Gonzalez Rogers in the Oakland division. The
13 parties had completed expert discovery and summary judgment briefing, but stipulated to a stay of
14 the litigation pending the completion of the appellate review in the ESET action. The court
15 entered the stay order on June 17, 2021.

16 On March 6, 2020, Finjan filed a lawsuit against Trustwave Holdings, Inc. et al. in the
17 United States District Court for the District of Delaware (Case No. 1-20-cv-00371), alleging that
18 Trustwave infringes one of the ten patents asserted against PAN in the instant lawsuit, specifically
19 the '154 Patent. This case is pending before the Honorable Leonard P. Stark in the Wilmington
20 division. Judge Stark entered a scheduling order, with trial set for June 12, 2023.
